Adjustable and modular. Ready for any venue.

RECTANGULAR STADIUM LIGHTING FOR SPORTS VENUES

These LED stadium lights deliver higher light output than traditional metal halide fixtures, providing bright, even illumination for sports venues and playing fields while using fewer fixtures—replacing MH bulbs from 500W to 2000W.

Each fixture features one to four independently adjustable rectangular LED heads. The modular design allows different wattage combinations to meet the specific lighting needs of any stadium or field.

KEY BENEFITS

Energy Efficient

Reduced energy costs vs. HID or metal halide

Long Lifespan

No bulbs to replace—lower maintenance costs

Fully Adjustable

Suitable for all types of stadiums or fields

Reduced Glare

Improved light distribution across the venue

Modular Design

Adjustable angles, mix wattage per head

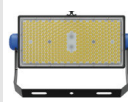

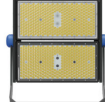

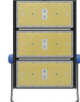

Instant Full Brightness

No warm-up or cool-down—ready instantly, unlike HID
